[By Smarica Pant](#), [Apoorva Anand](#): The Summer Program in Management (SPM) launched by the Indian Institute of Management, IIM Udaipur, is an intensive on-campus course designed for college students and recent graduates. The programme offers a valuable chance for students to learn from IIM Udaipur's renowned faculty, industry experts, and peers in a dynamic and supportive academic environment.

It's an ideal programme for those who want to get a feel of student life at an IIM. Additionally, SPM is perfect for anyone seeking a one-time learning experience.

Further, Professor Rajesh Agrawal, the Chairperson of the Summer Program in Management (SPM) at IIM Udaipur, provided additional information about the programme. "The SPM at IIM Udaipur is an opportunity the institute thought to start wherein students can come without the pressure of writing an exam."

"You just come here and experience the true life of an MBA," Professor Rajesh Agrawal adds.

A lot of students want to do an MBA without realising what it means!

“The reason why IIM Udaipur started this programme is because around 2.5 lakh students appear for the CAT but around 6,000 get admission in IIMs. Here is an opportunity, we thought, to start a 10-day programme at prestigious IIMs where you can come without the pressure of writing an exam,” says the Chairperson of the Summer Program in Management.
